Bescom bill domestic consumers an average of three months With the block extended, it is the Bangalore Electricity Supply Company (Bescom) that is facing problems as meter readers do not work or BESCOM employees are not allowed to enter the apartment to read the meter, the electricity distribution board in order to counter this has decided to bill domestic consumers on average for the previous three months of consumption. Monthly electricity bills for April for HT consumers and LT-40 HP consumers (and above) will be based on the actual meter reading. With regard to the remaining categories of consumers, including domestic consumers, the average will be based on the previous three months - January, February and March. The copy of the invoice will be sent to the registered email and mobile phone numbers. The average invoice will be subject to revision in May, when consumption for two months will be invoiced and proportionate way for invoicing the slab of each month. The amount of the surplus or deficit will be adjusted on the next invoice based on the actual meter reading. Metro.
